

We would like to invite you to take part in our 'One Way Run' trial at Aston by Sutton.

To improve safety along Aston Lane, we are trialling a 'One Way System' (please see map below). Most parents enter Aston Lane from the Sutton Weaver end but issues have been occurring involving dangerous manoeuvres, including 3 point turns and mounting pavements. Recently this has caused some very dangerous situations for vehicles, adults and children. This could easily be reduced by parents making the effort to use Aston Lane as a one way system.

We cannot force parents/drivers to adhere to this, but we would urge everyone to give this a go for one week to consider the safety of all our children and families. It doesn't add much to your journey in terms of distance or time. We thank you for your co-operation.
